

PROJECT PROFILE

Department of Defence (Exmouth WA)

Client

Department of Defence

Project

\$45m construction and commissioning of a space surveillance telescope at the Harold E Holt Naval Communications Station.

Scope

- Provision of OmTrak Documents module
- O&M Manuals & Site Works modules including set up
- Training and support of contractors in both metro and remote regional areas

Value Added

OmTrak was set up to adhere to the strict defence department guidelines for digital delivery. The system was successfully used as a central point for manuals, the integration of new and existing assets and handover/takeover documentation.
